

The Oconee Fall Festival was held on a beautiful October(16) Saturday. The crowds were back up to pre-Covid numbers with upwards of 10,000 in attendance. Due to continued social distancing guidelines, the layout of the festival was very different from years past and severely affected continuous flow of foot traffic to our booth. For this reason, we saw less visitors to our table although those that did stop were very engaged and open to environmental education and information.

Three easy ways to keep your neighborhood clean

Consider
our community
before you litter.

Clean, green, and beautiful spaces attract businesses, encourage community wellness, and help reduce pollution along our roadsides and waterways. How can you help?

1

Always be prepared. Keep a small bag for trash in your car, and carry one with you when you go on a walk. You never know when you'll need it!

2

Join a local cleanup. There's no better way to show your love for our community than spending an afternoon beautifying it with new friends.

3

Take it to the next level and sign our statewide pledge against litter. Scan the code below to add your name and join our movement.
