

The annual Keep America Beautiful Great American Cleanup returned to the traditional first day of Spring(March 21) start after a one year change due to the Covid pandemic. Our GAC event was still for the most part a series of independent or small group cleanups hosted by both individuals and Adopt a Mile members. All events during this time period counted towards our data totals if they involved litter removal. The ending for this GAC was the first day of Summer(June 20). Attached is a copy of the KAB GAC Wrap-up Report.
